

I have booked a baby/booster for my child. Where can I see this confirmed in my booking?

We unfortunately cannot confirm or guarantee you will receive the baby seat or booster you booked, or any other optional extras or special equipment. If you requested any of these optional extras during the booking process, they will appear on your confirmation voucher once your booking has been confirmed. These extras are not included in the price quoted and they must be paid for on arrival. We would advise you to ring the car rental agent ahead of your arrival to confirm they will be able to provide you with the optional extras you requested.
